

DIGEST THESE

# EVERYDAY ENZYMES™\*

**An enzyme supplement designed to assist the body in maximum digestion of nutrients, production of energy, and immune system support.\***

The ultimate goal of digestion is getting nutrients to the cells. Nutrients not only feed the cell, they protect it from free radical damage. Healthy cells lead to optimal metabolism, energy, and immunity.

Supplementing with digestive enzymes is a vital part of this nutrient acquisition process. This unique formula is the perfect introduction to digestive enzymes, supporting immune system health by encouraging more complete digestion of proteins, carbohydrates, and fats for increased absorption and availability of nutrients.

This formula supports digestion with a gentle blend of enzymes and probiotics.\*

- **Enzyme Blend.** This gentle formula of GI stable and functional digestive enzymes is designed to safely and effectively encourage more complete digestion.\*
- **Probiotics.** The probiotics *L. Acidophilus* and *B. Longum* are included in this formula for enhanced tolerance and digestive comfort.\*
- **Digestive Wellness.** The smaller capsule size is well tolerated for children as well as adults. This product is ideal for food intolerances, nutritional support during pregnancy and lactation, and children's occasional digestive issues.\*

## Supplement Facts

Serving Size 2 Capsules  
Servings Per Container 100

Amount Per Serving	% Daily Value ‡
Enzyme Proprietary Blend	372 mg †
